User Instructions:

1. Immediately after (or while) filling Diesel add Dinlog Diesel Saver GD4 for the quantity filled at 1ml for 10 litres. First time, add GD4 at 0.67ml for 10 litres (or 6.7ml for 100 Litres) for the Diesel in the Tank. Do not add extra doses.
2. Add Dinlog Diesel Saver GD4, at 1ml for 10 litres, whenever Diesel is filled in. High mileage is achieved after 3 or 4 uses. Mileages improves step by step.
3. Add Dinlog Diesel Saver GD4 directly with Diesel in the tank. Do not mix with Diesel in a separate bottle and then put into the tank.
4. Put correct dosages to get more mileage.
5. Go slow or at normal speed to save more Diesel.
6. Put GD4 on the Diesel visible inside the Tank. If Diesel is not visible, then first put GD4 into the tank (filling hole), then over it fill Diesel, so it mixes well with the Diesel in the tank.
